Live Sound Services

Mark Wayne is available to set-up and/or run your live sound.

In addition to his own system, Mark has experience running Yamaha, Mackie, and Behringer mixers along with lesser brands. With enough forewarning, Mark can quickly master any mixing board/system.

Mark utilizes the concept of *gain structure* for the best possible sound quality.

Bose L1 Model II

Available only with Mark running it, the state of the art Bose L1 Model II has a 500 person crowd capacity and the ability to produce 125db. The Bose L1 Model II utilizes the BR2 bass module (2x10) and the Bose T1 ToneMatch Audio Engine (4 combo xlr/line inputs).

Contact Mark Wayne to discuss your live sound needs and receive a price quote.
